

BRYDAN DENIS

FOR PSSU SFSS
COUNCIL REP

EXPERIENCE

Some cool stuff I'm proud of:

- Risk Management Chair for an SFU non-profit
 - worked on inclusivity clauses
- Bottle Collection Drive for Charity
- Participating and working at Blood Drive Events
- I will be starting Indigenous Tutoring in a couple of weeks!

Few things about me:

- Hockey fan - all the way!
- Passionate about making SFU a more inclusive space
- Catch me at a driving range for golf

A STRONG PSSU

I would like this position so I can help improve this department when needed. I would like to make this a program that helps and allows students to learn and become invested in the knowledge work and ultimately their future.

WHO AM I?

I am a first year student, majoring in Political Science, slowly figuring out what it is all about.

MY GOALS FOR PSSU

Creating a strong bond between PSSU, Students, and SFSS Council

As we are crawling out of the pandemic (hopefully) I want to make sure as PSSU, we consult students more to make council truly representative. I also want to work very closely with the rest of PSSU by planning events and other student involvement opportunities.

Oversee governance at SFSS

Councilors often mention council meetings running overtime. If elected to council, I would like to work closely with other councilors to ensure meetings stay on track, and people's times are respected. It is inaccessible for some to stay too long, and it will negatively impact students in the long run!

Cultivate a more open and accessible SFSS

As a first year, it was very difficult for me to figure out all this SFSS stuff. I think as Council, we should aim to do better outreach. We should be talking to students directly. People should know their representatives. That way we could improve engagement, and reach more students overall.
