PSSU ONLINE CODE OF CONDUCT

Since the goal of the Political Science Student Union is to provide an engaging space, it is necessary that we ensure all students feel welcome and safe in our Discord Server.

By being a part of our server, you automatically agree to the following and understand that failing to comply with the following will result in your removal from our Server:

i. RESPECTFUL LANGUAGE

- No racist, sexist, homophobic or transphobic language is to be used and doing so will result in your immediate removal from our server
- If you are unsure whether or not something could be interpreted as any of the aforementioned things, then it's probably best you don't say it or, if you really need, ask an exec.

ii. RESPECTING OPINIONS

- As political science students, we understand that debating is one of the best parts of our discipline!
- Please debate respectfully and, if you are criticizing something, make sure to keep your critique strictly about the idea rather than about the person.
- Name calling of any kind is not allowed.

iii. ACADEMIC INTEGRITY

- All of SFU's policies about academic integrity are to be adhered to within the PSSU server
- Any form of plagiarism, cheating, or sharing answers will result in an automatic removal from our server as well as consequences from the University
